

ARUM

A Reference Bibliography

76 SOURCES · 47 TAXA

REFERENCES PRESENT FOR 45 OF 47 TAXA (96%)

COMPILED 2026-10-15 FROM AROIDPEDIA.COM

Automatically compiled from the References section of every Arum species, cultivar and hybrid page on Aroidpedia. Part I lists every source alphabetically with the taxa citing it. Part II lists each taxon with its own references, for readers wishing to dive deeper into a single plant. Part III lists taxa whose pages do not yet carry a References section.

PART I - MASTER BIBLIOGRAPHY (A-Z)

B

Barabé et al. 2004. On the presence of extracellular calcium oxalate crystals on the inflorescences of Araceae. Botanical Journal of the Linnean Society.

cited by 1 – Arum Pictum

Barreto et al. 2025. How to turbo charge respiration – thermogenic metabolism in plants. Current Opinion in Plant Biology.

cited by 1 – Arum Concinnatum

Bahçe Bilim Dergisi 10(1): 33 (2023)

cited by 1 – Arum Meryemianum

Botanical Society of Britain and Ireland — Arum maculatum × italicum

cited by 1 – Arum Italicum × Arum Maculatum

Bröderbauer et al. 2012. Reconstructing the origin and elaboration of insect trapping inflorescences in the Araceae. American Journal of Botany.

cited by 1 – Arum Nigrum

Bröderbauer et al. 2013. The design of trapping devices in pollination traps of the genus Arum (Araceae) is related to insect type. Botanical Journal of the Linnean Society.

cited by 12 – Arum Besserianum, Arum Concinnatum, Arum Creticum, Arum Cyndraceum, Arum Dioscoridis, Arum Euxinum, Arum Hygrophilum, Arum Idaeum, Arum Maculatum, Arum Megobrebi, Arum Nigrum, Arum Purpureospathum

Bulletin de la Société Botanique de France 63: 11 (1916 publ. 1917)

cited by 1 – Arum Idaeum

Bulletin de la Société Botanique de Genève, sér. 2, 4: 159 (1912)

cited by 1 – Arum Cyrenaicum

Bullettino dell'Orto Botanico della Regia Università di Napoli 3: 409-410 (1913)

cited by 1 – Arum Lucanum

C

Chartier et al. 2013. Geographical variations of odour and pollinators, and test for local adaptation by reciprocal transplant of two European Arum species. Functional Ecology.

cited by 24 – Arum Apulum, Arum Besserianum, Arum Concinnatum, Arum Creticum, Arum Cyndraceum, Arum Cyrenaicum, Arum Dioscoridis, Arum Euxinum, Arum Gratum, Arum Hainesii, Arum Idaeum, Arum Italicum, Arum Jacquemontii, Arum Korolkowii, Arum Lucanum, Arum Megobrebi, Arum Nigrum, Arum Orientale, Arum Palaestinum, Arum Pictum, Arum Purpureospathum, Arum Rupicola, Arum Sintenisii

Leclerc et al. 2025. Subtle ecophysiological divergences in a deceptive strategy to attract the same pollinators in two sympatric Arum. Annals of Botany.

cited by 2 – Arum Italicum, Arum Maculatum
